PROFESSIONAL SUMMARY

Motivated Front-End Developer with hands-on experience in building responsive, user-friendly, and accessible websites using modern web technologies including HTML5, CSS3, and JavaScript. Skilled in translating UI design concepts into clean, efficient code with a strong focus on mobile responsiveness, UI/UX optimization, and clean code practices.

WORK EXPERIENCE

Freelance Front-End Developer

Feb 2025 – Present

Faisalabad, Punjab, Pakistan

- Developed responsive, interactive, and cross-browser compatible web interfaces using HTML5, CSS3, and JavaScript.
- Designed and implemented reusable UI components to ensure code maintainability and consistent user experience.
- Optimized front-end performance, asset loading, and layout rendering across various devices.
- Utilized Git and GitHub for version control, repository management, and code deployment.

FEATURED PROJECTS

Personal Developer Portfolio

2025

Live Demo: <https://mianisback59-lang.github.io/portfolio/>

- Designed and built a custom responsive developer portfolio from scratch using HTML5, CSS3, and vanilla JavaScript.
- Features mobile-first responsive design, modern UI aesthetics, smooth navigation, and optimized assets.
